ELLETS ERTLA'L

La rettoscopia è il modo migliore per indagare i retroscena.
(Vanessa Tundo)

La voce a sinistra e *la voce a destra* sono i due testimoni di un originale disperso, forse mai stato. Si atteggiano a sordidi e adiafori personaggi di una commedia che tradisce le mute parole intese dall'*occhio*, per ridarcele in un balbettio implacabilmente e irrimediabilmente coniato e revocato. Non si può rimanere fedeli all'originale (in quanto disperso) né accontentarsi dell'ultima stesura (in quanto difficilmente decifrabile). Incurante delle attese della filologia, la commedia inarca una desinenza equivoca a sostegno di una cattedrale ormai in rovina: chiede un lettore che rinunci, fin dall'inizio, alla propria capacità di intendere. Accettante l'incompiutezza e abbandonato alla *résonance de la langue* e alla magia del terzo suono di Tartini.
